

Accomplished Practices: Technology (AP #12)

The preprofessional teacher uses technology as available at the school site and as appropriate to the learner. She/he provides students with opportunities to actively use technology and facilitates access to the use of electronic resources. The teacher also uses technology to manage, evaluate, and improve instruction.

CLO #2: Candidates will create an environment that fosters positive interaction, inquiry, critical thinking, and student success, using communication skills and technology as appropriate to reflect a progressive classroom.

NCATE Standard 3.3: Development of critical thinking, problem solving, and performance skills—Candidates understand and use a variety of teaching strategies that encourage elementary students’ development of critical thinking, problem solving, and performance.
